Domestic Assessed Volume Tariff

The present unmeasured water tariff (Rateable Value Basis) arrangement is being discontinued as the universal metering programme is rolled out across the island. If Jersey Water is unable to install a water meter on the supply to your property you will be charged for water on the Domestic Assessed Volume Tariff.

The Domestic Assessed Volume Tariff is based on the average amount of water that a metered household consumes. It is a fixed charge per occupant normally resident in the premises and is charged quarterly in advance. You must inform us if the number of occupants in the premises increases or decreases.

If you are billed on the Domestic Assessed Volume Tariff, you cannot revert to being charged on a Rateable Value basis. Should it be possible for a water meter to be fitted at a later date, or if Jersey Water agrees to install a meter (where it had previously declined to do so), then a meter will be installed free of charge and your water tariff changed to an actual measured basis.

Please note that the Domestic Assessed Volume Tariff is not available for commercial customers.

Assessed charges

Number of people in household	Quarterly standing charge	Quarterly assessed consumption (m ³)	Total water bill*
1	£5.27	13.23	£38.44
2	£5.27	24.34	£66.30
3	£5.27	32.85	£87.64
4	£5.27	39.56	£104.47
5	£5.27	46.40	£121.62
6	£5.27	55.68	£144.89

* The standing charge is included in the total water bill. The Domestic Assessed Volume Tariff is a fixed charge per occupant of the premises and is charged quarterly in advance. If the number of occupants in your household changes please inform us as soon as possible so your account can be amended.

All prices are quoted exclusive of the Goods and Services Tax ('GST') at the applicable rate.
